### SOURCE OF DREAD DISEASE OVER SEA

Lecturer Urges Need of Wiping  
Out Infantile Paralysis  
From Scandinavia.

NEW YORK, Feb. 10.—As Havana harbor was made clean of the yellow fever for the protection of the world, Scandinavia, as the source of infantile paralysis, must be freed from that disease for the safety of other countries, according to Jacobus Malmgren, of Stockholm, who is in New York for a series of lectures before the American Academy of Medicine.

"All our infantile paralysis appears to have come from Scandinavia," said Dr. Malmgren. "There in those little homes, where the people, through the long dark winters live in close dark quarters, in close proximity to their animals, we find much infantile paralysis. Now there is a sailor in nearly every family there, and they carry the germs to other countries, from whence they are carried inland. The true way to meet this disease is to stamp it out in Scandinavia."

### YOUNG THAW MISSING ON HIS HONEYMOON

PITTSBURGH, Feb. 10.—William Thaw III, who was married in New York December 1 to Miss Gladys T. Bradley, after she had kept him on probation for six months under pledge to abstain from drinking, has mysteriously disappeared while on his honeymoon in the city of San Juan. The information was confirmed last night at the home of Mrs. William Thaw, mother of the young man and one of the leaders of Pittsburgh society. Nothing could be learned at his home last night beyond the fact that he is missing and was being sought. The present stopping place of the bride and the circumstances of his leaving her are not known.

#### AMMONIA FROM ATR.

BERLIN, Feb. 10.—Professor Haber's new process for using the atmospheric nitrogen for the production of ammonia is reported to be so successful that synthetic ammonia is about to be placed on the market.

### GILDED LILLY IN CHICO HOME

Craftsman Taught Wife to  
Love Him and Husband  
How to Paint.

CHICO, Feb. 10.—A scandal which shook the United Presbyterian church in Chico to its very foundations was brought to an issue in the divorce court when a Peacock instituted suit for divorce against Ethel Beckett. The charges made are of a sensational character, and a young painter whom Beckett admitted into his home is named as co-respondent in the case.

According to the allegations made, the affair in the union joined the church in Chico. He was taken into the Beckett home, where he was to teach the young husband his trade. While teaching the husband to paint, he seduced the wife, and soon supplanted Beckett in the affections of his wife.

When Beckett learned the situation, he died last to Mrs. Beckett their home in Chico and waited out, leaving Mrs. Beckett and her family together. Beckett was summarily dismissed from the church.

The two were married in 1904 in Colorado. There are two small children. Beckett is the custody of these children. He is represented in the case by Colonel Edwards.

### ARTIST LEAVES COLONEL OUT OF THE PICTURE

ZANESVILLE, O., Feb. 10.—A sketch of the battle of San Juan, which was painted during the war with Spain in Cuba, has just been finished here by Howard Chandler Christy.

The most peculiar thing about the picture, which will adorn one of the towers of a certain encyclopaedia, is that the figure of Colonel Theodore Roosevelt, who has long been known in America as one of the heroes of San Juan hill, does not appear in this picture. Christy was asked about this matter.

"Colonel Roosevelt was not in the battle and his tough figure was three-quarters of a mile away, attacking Kettle hill. He was not in the charge which captured San Juan hill, but was in another part of the battle and had nothing to do with San Juan hill proper."

## PHONE MERGER NOT TO AFFECT COAST

Home Company of Kansas  
City Absorbed by American  
District.

SAN FRANCISCANS  
DECLARE DEAL LOCAL

Officials Say There Will be no  
Combination in the  
West.

KANSAS CITY, Mo., Feb. 10.—The Times says this morning: Negotiations for the sale of the Home Telephone Company to the American Telephone and Telegraph Company have been under way for several weeks. S. S. Glead, manager of the Bell Telephone Company here, who has been in New York this week to consummate the deal, did not finish his business until yesterday and started home last night. It is understood the result of the deal will be announced in a few days.

J. J. Helm, president of the Home Telephone Company, who is in New York, and returned Wednesday, while not denying that the American District Telephone and Telegraph Company has absorbed his company, refused to discuss the merger.

#### LOCAL MATTER.

SAN FRANCISCO, Feb. 10.—The officials of the Pacific Telephone Company and the Home Telephone Company this city deny that there is any possibility of an amalgamation of the concerns operating in this city and give it as their opinion that the Kansas City combine must be purely a local matter.

"I have heard nothing about an joining of the companies in Kansas City," said P. H. Cookstar, general manager of the Pacific Telephone Company, "and there is no intention of any combination here, and this is the first I have heard about it."

C. R. Ogilvie, one of the officials of the Home Telephone Company, made a similar statement: "I think I can safely say that there is no probability at all of an amalgamation of the two telephone companies in the bay cities," he declared.

### DANVILLE PROBE THRUST DEEPER

More Than 200 True Bills to  
Be Returned Against Al-  
leged Boodlers.

DANVILLE, N. C., Feb. 10.—Yesterday was the Vermillion county grand jury's greatest field day in vote corruption, and one of the deepest gloom for the followers of Speaker Joe Danville.

For inclusion in the preliminary report, which is promised for this morning, these counts between forty and sixty indictments, which are to be voted this morning.

The preliminary part will contain over 200 true bills, a large percentage of which are for vote selling.

This breaks all records in Vermillion county, the largest previous total return having been 175.

And this is only a beginning.

Prior individual grand jurors made this statement after their session closed late yesterday afternoon.

"We will make that a large county bunch of grand jurors look like 'm'f'ers," said one.

"Stop us," said another. "They've got about as much chance as Chanticleer about as stopping the sun. These politicians have been doing all the growing up to now, but some of them don't know how near they are to stripes and jail."

No move of the jury has caused as great furor as the ordering of the preliminary indictments. The order came during the noon recess, and was delivered to Assistant State's Attorney Charles M. Crayton.

The list was carefully guarded, but

### PIONEER DISAPPEARS WHILE OUT WALKING

SACRAMENTO, Feb. 10.—Diedrich W. Eilers, a pioneer resident of Sacramento, has mysteriously disappeared. He was last seen by neighbors of the house where he lives on Saturday, and though an extensive search has been made for him since that time, no trace of him can be found.

Eilers, who was a man of 80 years of age, left the house for a walk on Saturday, January 28. When he failed to return search was made. He was traced to Seventh and H streets, but there he trailed off, and it is feared that something has happened to him. Theodore Eilers, a son, who resides in San Francisco, is in Sacramento looking for his father. He has asked the assistance of the district attorney.

The missing man has lived in Sacramento many years, and is a considerable property holder. He has been a member of the local lodge of Odd Fellows.

Mack, recently appointed as associate judge of the Commerce Court.

Judge Mack is a native of California. There will be scarcely a thing on the table which does not come from the West. Even the decorations of will ferns, violets and lilies will be shipped to Chicago. There will be California melons, peaches, walnuts and almonds, oysters, clams, codfish, tomatoes, cucumbers, apples and pears and apples. There will be sixty cases of alfalfa, some of California wheat and 200 California chickens.

#### POSTOFFICE ROBBERY.

The Union post office, which is in the same building, was also robbed. The burglars securing only a few dollars. The store of C. L. ## PRESIDENT TAFT ON RECIPROCITY

Chief Executive of the Nation  
Outlines His Idea of Im-  
portant Policy.

(Continued From Page 1.)

price is governed by the world price and the sending of any part of Canada's surplus through our country instead of through Canada, to be milled or to be exported without milling, will not perceptibly or materially affect the price of wheat for our farmers.

### Increased Milling

"The value of farm lands," he said, "is affected by the proximity to market more than by any other element," and he maintained the American farmer would still have the advantage in this respect. He predicted a great increase in American milling as a result of this agreement.

"It is a mere truism," said the President, "to say that the farmer of this country constitutes the greatest wealth-producing class of the country, and that it is of the greatest importance to conserve their welfare. When we have had good crops, the wheat of which we have milled and exported has been sold, anyone, therefore, who would initiate a policy to injure the farmer has much to answer for at the bar of public opinion."

"The greatest reason for adopting this agreement is the fact that it is going to unite two countries with kindred people in a commercial and social union to the great advantage of both. Such a result does not need to be justified by a nice balancing of pecuniary profit to each."

"It is undoubted general benefit will vindicate those who are responsible for it. I say this in order that by answering the arguments directed to the detailed effect of the agreement upon different classes of persons, I may not be thought to abandon the broad ground upon which the opportunity to confirm this agreement ought to be seized."

### Gives Corn Statistics

Taking up first the effect of the agreement on corn, he said:

"The total production of corn in the United States in 1910 was 3,125,112,000 bushels, of which we exported 44,725,263 bushels. The Canadian production of corn was 1,240,000 bushels, or about 4 percent of the total production of the United States. We exported 6,000,000 bushels to Canada."

"Certainly in respect to corn the American farmer has a great advantage. Indeed, the change will greatly help him by increasing his supply of young and this cattle, now being raised, for feeding with his corn and making good beef."

"But it is said that the farm land of Ohio, Indiana, Illinois, Wisconsin and other states is much more valuable than the land in Manitoba, Saskatchewan, Alberta and the Northwest provinces of Canada, and that to give Canadian farmers free entry of products raised on cheaper lands will result in a lower farm lands in value in this country."

### Refutes Assertion

"Nothing could be further from the fact. The Canadian lands are further removed from the Minneapolis and Chicago markets than the lands of Minnesota, Wisconsin, Iowa or Illinois, and proximity to market is a most important element in the value of farm lands in Illinois and Iowa."

"Then the natural change in farming in this country is from the raising of grain for export to the raising of grain for farm consumption and development of the secondary products in the form of cattle and hogs. The live cattle are bought and fattened. The hogs are raised and fed. It is farming of this kind that explains the high value of farm lands in Illinois and Iowa."

"If the argument as to the disastrous effect of admitting the crops of the Canadian Northwest to our markets upon the values of our farm lands is correct, then the opening of lands in Kansas, Nebraska and the two Dakotas in the two decades from 1890 to 1910 should have had a similar effect upon the land of the older states."

### Cites a Few Facts

"Now, what was the fact? What was the effect upon the farm lands of the older states of the competition of these newer states?"

"The land in the older states became more devoted to corn and cattle and hogs, while the wheat and other cereals were left to the new lands. The effect was that the values of the land of the older farming states were in most cases more than doubled."

"The difference in the value of the acre between Manitoba and Minnesota is but little more than \$8, while the difference between Minnesota and Wisconsin is \$2, between Wisconsin and Illinois is \$2, between Illinois and Iowa is \$4 and between Michigan and Indiana is \$3. These figures show incontestably that the fear of a reduction in farm land values of this country by letting in Canada's products is wholly unfounded."

"The price of wheat, less transportation and other charges for warehouse and delivery, is fixed by what all the wheat exporting countries, including the United States and Canada, can get for their surplus in Liverpool. Hence the sending of any part of Canada's surplus through our country instead of through Canada to be milled or to be exported without milling, will not materially affect the price of wheat for our farmers."

### Price Will Be Same

"Upon the market of Minneapolis and Chicago, give the transportation and warehousing facilities of our Northwest a chance the Canadian farmer will get for his wheat practically what the American gets, less the higher charges due to greater distance from market."

"In other words, the advantage we give the Canadian farmer will not hurt our farmer, for the price will remain the same, but by patronizing our farmers, our four mills, our railroads, will secure admission to the world's market at a less cost to himself, while we will secure the advantage of increased trade for our elevators, our mills, our railroads and our commission men."

"The United States secured for the farmers the free listing of such important agricultural products as cotton and all kinds of fruits and vegetables, timothy and clover seeds, eggs and numerous other products in which the movement to Canada from the United States is much greater than from Canada to the United States."

### A Few Lumber Facts

"The remission of \$1,300,000 in duties on rough lumber imported into the United States by free listing it, along with pickets and palings, and the heavy re-

## BERKELEY TO HAE FINE NEW CHURCH

Yoakum, New Pastor, at  
Reception Tonight.

BERKELEY, Feb. 10.—One of the scriptures in store for the Rev. Guy E. Yoakum, the new pastor of the Park Congregational church, at the reception to be tendered him tonight, will be a request for him to sanction new plans for a proposed \$15,000 church. This structure is to be the most up-to-date in the city and of the mission style. The plan is to remove the old church building and build a new one directly in front of what the old one stood at the corner of Ellis and Fairview streets. The old church building will be used for Sunday school purposes.

### ELEVEN-YEAR-OLD

### GIRL WRITES PLAY

NEW YORK, Feb. 10.—Eleven-year-old Cornelia Skinner, daughter of Otis Skinner, actor, is following in the theatrical footsteps of her father. She has written a play and is going to have it acted.

Early last week little Miss Skinner handed a manuscript to Charles Frohman, gravely calling his attention to the fact that it was a one-act play entitled "The Maid," and emphasizing the fact that it contained a "typical Otis Skinner part." Frohman examined the little girl's work and found that, indeed, she had written an accurate play containing five characters, based on one of the King Arthur legends. There were several good situations in it, and Frohman decided that, with a little fixing up, it might be presented as a curtain raiser to "Bire," at the Criterion Theater. So he accepted it and arranged with his juvenile client for royalties.

Little Miss Skinner has been busy with her pen in other directions. She has written verses at various times and some of them have appeared in children's magazines.

### DOG KEEPS VIGIL

### OVER WATERY GRAVE

TANGIER, N. S., Feb. 10.—The circling track of a dog on the ice at Tangier Lake has cleared the mystery of the disappearance a week ago of Bain Mason and Freeman Beaver, brother-in-law.

After a fruitless hunt of several days searchers found faint impressions of a dog's paws forming a circle at one place on the ice. There was no sign of a break there, but a hole was made and the bottom of the lake dragged, disclosing the bodies.

It is supposed that the two men fell through the now ice formed over the break aimed at immediately. They had been fighting for birds.

Undoubtedly the dog, distressed by the mishap and unable to rescue them, kept circling the spot until compelled by hunger to abandon it.

Funerals on dressed lumber, laths and shingles are all in the interests of the farmer.

"The agreement is adopted and goes into operation and in six months the farmers on the border who now have fears, will rejoice in this great step toward close business and social relations with their neighbors. The whole country—farmer, manufacturer, railroad company, middle man, warehouse man—all will be the gainer."

## PECULIAR BIGAMY CASE IS ON TRIAL

Fortune Left to Wife By the  
Mother of Claimant  
Is at Stake.

DUNSMUIR, Cal., Feb. 10.—Complications have developed in the tangled case of Samuel B. Stewart, formerly of 2902 Susacanna avenue, who, charging his wife with bigamy, is striving to wrest from her possession the fortune left by his mother when she died, seven years ago. Mrs. Stewart's first husband, Albert E. Mathes, throughout the day loomed a shadowy, ominous figure in the case of litigation.

Detectives in the service of Mrs. Stewart scoured Philadelphia and Camden all day, trying to learn where Mathes is now stopping and what information he has given Stewart's attorneys to be used in the war between the woman to whom he was married twenty years ago and the man who became her second husband.

### SAY MATHES WAS MARRIED, TOO

Both sides admit that Mathes will play an important part in the dispute of the Stewarts. But Mrs. Stewart's lawyers say they have received information that the man who went before the grand jury in Camden and gave testimony which resulted in the returning of an indictment against Stewart, is now living in Philadelphia and has six children, indicating that he thought himself free to enter into a matrimonial alliance.

On the other hand, it was said that Mathes, embittered against the woman, has supplied Stewart's attorneys with important information, including letters which Mrs. Stewart is said to have written to him. Stewart's lawyers refused to admit or deny that they had any such documents.

Mr. and Mrs. Ansel M. Easton are planning a European trip, which will keep them abroad for several months. They will be accompanied by their children.

## Judge Works on the Recall of Judges.

Hon. John D. Works, Senator-elect, has taken decided ground against the proposed recall of judges. In a letter to Charles S. Wheeler he expresses the hope that the Legislature will not sanction so revolutionary a project. He terms it "reform run mad," and says it will decrease the efficiency and lower the dignity of the judiciary without correcting the evils in the administration of the law which so many complain of.

On this subject Judge Works speaks with authority. He has served as Superior Judge and as a Justice of the Supreme Court and he has had many years' experience as a practitioner at the bar. He has thus had abundant opportunities for observing and judging the bench from both the outside and the inside. Judge Works is radical in many of his views and it cannot be said that his sympathies are with what are usually called "the interests." His opposition to the recall of judges is prompted by the conviction that it would result in immense damage to our political system and place upon the bench inferior and contemptible men. In his letter to Mr. Wheeler Judge Works says:

"The future of this country is greatly dependent upon a fearless and independent judiciary. Any conscientious man who has served as judge will tell you that he has been compelled by his oath and his sense of duty to render decisions that were unpopular with him, and if left free to exercise his own desires no such decisions would have been rendered. Indeed the most difficult thing a judge has to do is to control his own feelings and decide cases according to law and not according to his own feelings of sympathy or the reverse.

"Such a judge will, of necessity, render decisions that are unpopular with the public, as well as himself, in the performance of his imperative duty. It will be just such unpopular decisions that will arouse public resentment and induce the recall of the judge who has the honesty and the courage to do his duty, often against his own feelings. The judge who will bow to his own feelings or to public clamor, often ill-founded, will never be recalled, while the judge who does his duty will fall a victim to the public indignation based on wholly false ideas of the duty of a judge."

He adds that he hopes the Legislature will listen to reason before taking "this wrong step," and goes on to say: "We will still have judges that will do their duty fearlessly in spite of the big stick in the form of the recall. I hope we have courageous men enough in the Legislature to resist the public clamor that is pressing for this legislation that will make the weak judge weaker and encourage the dishonest judge to decide cases in such way as to secure public favor, instead of deciding the law without fear, favor or affection."

These are strong and true words. Nobody has stated the objections to the recall of judges so clearly and emphatically as has Judge Works. His position in the matter is all the more honorable to him because it directly antagonizes many of his strongest supporters in the Senatorial contest. Hence the protest he has uttered is a tribute to his independence of mind and strength of character. It is charged with earnest conviction, and will have great weight if the Legislature is not besotted with the notion that it must run after every crank notion suggested to it.

Lord Landsdowne's proposal to negotiate with the Asquith ministry is a trifle humorous. After being beaten in two successive appeals to the electorate the peers propose to negotiate! Having lost in the court of last resort the lords propose to compound the judgment in a dicker with the commons. It is not likely that Asquith and Lloyd George will entertain the proposition.

No one should be surprised that Francis J. Heney has a poor opinion of the makers of the Federal Constitution. They were men so unlike Heney, so differently moulded in ethics and cast of thought, that it is utterly impossible that Heney should either appreciate their work or comprehend the motives which prompted them. It is a compliment to the fathers of the constitution that Heney should deride them and scoff at their work. Heney's contempt for the constitution has long been notorious. Nevertheless the constitution will survive and the fame of the men who framed it will not suffer.

Tangier, that famous old town in Morocco across the strait from Gibraltar, is now connected by rail with Algiers and Tunis. It is now possible to reach all the principal points in Northern Africa east of the Moroccan frontier by rail. The railway to Tangier, as well as all the railroads in Northern Africa, belongs to the French government, which by its control of transportation facilities is tightening its hold on the Berber Coast. France is evidently getting a firm grip on Morocco.

The junior Senator from Virginia is apparently a sort of swansong for New Orleans. He wants a naval parade in Hampton Roads before he will consent to holding the Panama-Pacific Exposition in San Francisco. The sincerity of Senator Swanson's desire for a naval parade in Hampton Roads is open to question. Hampton Roads is the regular rendezvous of the fleet, and there is no reason whatever why the fleet should be assembled and paraded there at the very time it is expected to appear in San Francisco bay. It might as well be argued that the fleet should parade in Delaware bay, New York bay or Boston harbor. Senator Swanson is simply playing the part of an obstructionist.

Arizona is keeping up her reputation for being wild and woolly. She has ratified a Statehood constitution providing for the recall of judges, also the initiative and referendum and other radical and summary processes in government.

## Arizona's New Constitution Ratified.

Now that the Arizona constitution providing for the recall of judges has been ratified other States will be given an object lesson in the workings of the scheme to make judicial decisions reflect the passing ebullitions of popular passion and prejudice. Our feet are guided by the lamp of experience. The experience Arizona is about to undergo will be educating to the whole country. It will be either a horrible example or an unexpected revelation. Hitherto all judges of courts of record in Arizona have been appointed by the President.

Now that Arizona has assumed the independence and responsibilities of Statehood judges will be chosen by popular vote; they will also be subject to recall any time they become unsatisfactory to the constituency that elected them. A small percentage of the voters can at any time compel a recall election to be called. It was plainly stated by the men who inserted this provision in the constitution that the object was to make judges "do what the people want them to do"—in other words, to be mere creatures of the mob spirit.

Possibly the project might not have carried if the people of

Arizona had been left to settle the matter for themselves, but unfortunately outside pressure was applied and unwise attempts were made to frighten the Arizonians with threats of what Congress might do. This had the very opposite of the effect intended. It crystallized sentiment in favor of the constitution. Resentment against outside dictation overcame all other considerations, and the people of Arizona ratified the constitution just to show the Washington folks that they proposed to attend to their own affairs in their own way. Now we shall see what will come of it.

California will get three more Congressmen and three more votes in the Electoral College under the Crumpacker apportionment bill which has just passed the House. Oregon gains one and Washington two Congressmen, increasing the political strength of the Pacific States materially. The admission of Arizona will give this division two more Senators and another Congressman.

## The Codfish Invasion of New England.

The sacred codfish in the Statehouse at Boston is wriggling his tail in terror of impending calamity. His gills are turning white and he is manifesting other signs of perturbation. All the codfish aristocracy of New England is in commotion. Calamity threatens New England. It is proposed to let the pauper codfish of Canada enter the United States free of duty. For some unexplained reason the mackerel some years ago abandoned the shores of New England, and now the codfish that loyally remained are in danger of being exterminated by invaders from the Bay of Fundy, the Gulf of St. Lawrence and the shores of Newfoundland. And the worst of it is the Governor of Massachusetts welcomes the threatened invasion instead of calling out the Ancient and Honorable Artillery of Boston to repel it. No wonder the Sacred Codfish in the State Capitol is pale around the gills and has the shivers in his tail. The nation is in peril, and a Democrat sits in the Governor's chair; moreover, the liberties of Massachusetts are threatened. Codfish Canada style may be introduced to Yankee cuisine. Small wonder that the town pump of Gloucester is shedding salt tears and the Hon. Augustus P. Gardner, who represents the Cape Cod district in Congress, threatens to call together the Hartford convention in defense of the liberties of the codfishers of Massachusetts. It is a woeful situation. We shudder to think of the consequences should President Taft persist in urging Congress to ratify the reciprocity agreement with Canada. Will Cape Cod secede from the United States and set up as an independent republic? In that case Hon. Augustus P. Gardner may be elected president of something more important than a fish company.

Because we have adopted a new and improved charter is no reason why the administration of municipal affairs should be entrusted to dubs and scrubs. The city of Oakland is a \$126,000,000 corporation, and the business of a concern of that magnitude should only be placed in the hands of men of capacity, experience and integrity. This city is a big enterprise and it should be handled by men equal to the job.

## FELLOW-WORKERS WITH GOD

By REV. RICHARD M. VAUGHN,  
Pastor First Baptist Church of Berkeley.

Rev. R. M. Vaughn.

God himself is the supreme worker. The central fact in his character is good-will. And there can be no will that does not will something. By virtue of what he is God is forever busy. Oriental religions represent him as the quiescent God, but they express only partial truth. Nor is it true that God finished the world six thousand years ago and that he has done nothing since save to interfere with its special providence. He is the present energy of the world, active in the falling rain and the beating heart of man. He invites us to share in his activities. We are not asked to toll for God but with God—to be his fellow-workers.

If we are to toll effectively we must understand the task to which God has set his hand. What does the universe exist for? The noblest answer is in the words spoken on the morning of the sixth creative day, as they are recorded in the sublime poem in Genesis, "Let us make man in our image." Here was the capstone of his labors. Scarcely, no less than the Bible, declares that man is the crown of the creation. The universe is a character factory; it is a mill whose only product is men and women. The reason why stars shine, civilizations rise, is that men and women may be fashioned in the divine likeness. The justification of all human institutions must be the sort of people they make. The highest product of our factories is not cotton prints and steel rails, but men. And the best type of industrialism is that which makes the best men. This is the task which we share with God. To make men in the beauty and the dignity of the divine likeness, there can be no higher task.

It is a task which God cannot do alone. Character is not a creation. It is an achievement. God himself cannot bestow it. He can only aid men to realize it through choice and struggle and habit. Nature, itself is a field where God and men toil together. The modern orange is the result of horticultural processes. The elimination of the spines of the cactus is a story recently told. God and Luther Burbank made the spineless cactus. All the harvests that wave are the result of human and divine partnership. Men plow and scatter the seed and God gives the increase. In the spiritual order the partnership of God and man is especially manifest. No man was ever converted, either in spite of himself or through himself alone. The spirit of God may speak in the depths of the conscience, but man himself must respond to divine love. He must transmute his impulses into deeds. He must link his life to the power of God. We are sanctified by the truth and unless we acquaint ourselves with it, how can God make us holy? God has never blessed any one apart from human agency. Some one spoke a brave and kindly word, some one wrote a noble book, some one extended a helping hand. Paul was converted as he stood in the light which shone above the light of the noonday. But his mind was stored with the truth concerning the gospel of Jesus. He still heard the echo of Stephen's sermon and of the prayer of the martyr as he died with the glory upon his face. Paul was converted as he knelt a captive in the lonely Irish hills, but the fuel which kindled into flame had been piled in his heart by distant human hands. The spread of Christianity depends upon co-operation with God. God and Uplift converted the Germans; God and Boniface converted the Germans; God and Cruttim, through Robert's college, revolutionized Turkey; God and David Livingston opened Africa; God and Gulde Verbeek made the new Japan. God and you and I must save America and evangelize the world.

## 20 YEARS AGO IN OAKLAND

## GERMAN STUDENTS OLD REVOLUTIONIST ARE NOT HEALTHY IS NEAR DEATH

So Declares Prof. Tomb of Columbia Who Was in Berlin.

NEW YORK, Feb. 10. — Professor Rudolph Tomb, sent by Columbia University as exchange professor in Berlin, has returned to America with his faith in American university life and its superiority undisturbed.

"The German student isn't healthy looking or as sound as the American college man," says Professor Tomb. "He has few opportunities for exercise and little chance at healthy sports. In the matter of college spirit the German is as far behind the American student. Partly the fault lies with the German system of education. From his ninth to his eighteenth year, the boy attends a 'gymnasium.' The miscellaneous ages here and the later habit of spending a semester or two at different universities spoils his chances of getting any real college spirit.

NO USE FOR CO-ED.

"They have absolutely no use for 'co-ed' and whenever I referred to the higher education of women they expressed disapproval by shuffling their feet. When I

Thomas O. Bolger of Irish Brotherhood Dangerously Ill.

ROCHESTER, N. Y., Feb. 10. — Thomas O. Bolger, who was a member of the Irish revolutionary brotherhood, which attempted the rescue of Colonel Thomas J. Kelly and Captain Timothy Dancy from a prison van at Manchester, England, in 1867, for which attempt the Manchester inactivity—Allen, Larkin and O'Brien, were hanged, is living dangerously ill at his residence in this city.

O'Brien, who made a sensational escape after the attack on the prison van, came at once to America. He has been a resident of Rochester for several years.

mentioned that no woman could study law at Columbia, they stamped with enthusiasm.

"German students are much interested in everything American, but they consider our tuition fees extortionate. Many would study in this country were it not for the expense. 'Your students must be all rich men,' said one of my hearers in Berlin. I told him that on the contrary most of them were comparatively poor, but he could not understand."

## SPIRITED FIGHT ON OVER ASIATIC EXCLUSION

Senator Sanford Presents and Withdraws Resolution on Subject.

COMMITTEE MEETING TO BE HELD MONDAY

Fear Expressed That Question May Interfere With 1915 Exposition.

SACRAMENTO, Feb. 10. — Senator J. P. Sanford, chairman of the Democratic caucus, today presented a resolution calling upon the Senate committee on federal relations to report out a resolution introduced January 30 asking the California delegation in Congress to work for the permanent exclusion of Asiatic laborers in the new Japanese treaty.

After an hour and a half of acrimonious debate, he withdrew the resolution upon a statement of Senator Wright (Republican), chairman of the committee, that he intended calling a meeting of the committee on or before Monday.

It was developed that the committee had held two meetings since the introduction of the resolution and that Sanford had not attended either one. He explained this by saying he had told the chairman of the committee that it would not be necessary for him (Sanford) to appear.

CITES "UNWRITTEN RULE."

Senator Thompson, a Republican leader, called the attention of the Senate to the "unwritten rule" that no measure is reported from committee in advance of its author. Senator Shanahan (Democrat), supporting Senator Sanford, declared the situation demanded immediate action.

"It is said that this question may interfere with the exposition in 1915," he said.

"As between the exposition and the exclusion of all forms of Asiatic labor, it would be a thousand times better to lose the exposition."

"We are as a man who is annoyed by children in his garden," said Senator Stetson (Republican), a member of the steering committee. "Some of us would favor chastising these children, others think a better policy would be to take the matter up with their parents and see if mischievous youngsters cannot be restrained by parental authority."

NOT SO SHOWY.

"It is not quite so showy a method, not quite so spectacular, and some of us perhaps think not quite so good. But the rough and ready days of twenty years ago are gone from California."

In closing debate Senator Sanford asserted that many secret meetings had been held by members of the Republican union in order "to get around this proposition."

The Senate will meet tomorrow, and also on Monday, and will hold a legislative Lincoln commemorative service Monday evening.

## GRADUATION GOWNS AT ONE DOLLAR A PIECE

PITTSBURGH, Feb. 10. — Graduation gowns to cost no more than \$1 are to be popular among teachers and parents. Pittsburgh the coming June. Hundreds of young women are in tears, however, over the stand taken by the parents and principals, and many warmly declare that they will not try to pass the examinations for graduation if they cannot wear something better than a "cheap old dollar dress."

The principal reason for the move is that a great percentage of the graduates cannot afford to spend \$25 or \$30 on a graduation dress, as do the richer girls, and there has always been more or less heartache over graduation.

## WHAT I WENT THROUGH

Before taking Lydia E. Pinkham's Vegetable Compound.

Natick, Mass. — "I cannot express what I went through during the change of my life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations, and I could not sleep. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."

—Mrs. NATHAN B. GREASON, 61 N. Main Street, Natick, Mass.

The Change of Life is the most critical period of a woman's existence. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Get acquainted with the quality of Pianos sold by The Wiley B. Allen Company. No one would willingly expend money for a Piano which they knew would last but a short time. No price is cheap for a poor Piano.

Answer a simple question. Why is it no matter what city you may be in, you never find such Pianos as Mason & Hamlin, Hardman, Conover, Packard, Ludwig, selling for any other than the price quoted in your own city of Oakland.

QUALITY Pianos alone merit your attention NOW. QUALITY Pianos are the only ones that protect your investment in the future.

These Piano—and this class of Pianos only—will you find represented by any of The Wiley B. Allen Company's stores. Get acquainted with the quality of our Pianos and we will permit you to decide as to the consistency of price. There is a dollar in quality for every dollar asked in your purchase.

In Quality Pianos only YOU get value ALL THE TIME. Get acquainted with this class of Pianos before purchasing. It costs you but a few moments of your time to investigate. Decide where your best judgment dictates. Divided payments is desired.

### NOVELTIES GRACE ORPHEUM'S BILL PRESENT WEEK

"GRACE," the star performer among Valletta's leopards, coming to Oakland Orpheum next Sunday.

You can put your finger in almost any where in the Oakland Orpheum's program and pull out a gem. The star of the show is Jack the Tiger. He is a fine specimen of his kind. It is a nice slow and steady job of it. It is a job that every point is made well. He is a tiger of the middle and then whips up in a flash of light at the finish.

Just as a spool of novelty they have an Oak and Society, and on the program this week is the person of Ramona. The girl is a very nice girl. She is a very nice girl and holds up her end pretty well among the professionals on the Orpheum stage.

The big stars are Clayton White and Marie Stuart. We saw them before about three years ago when they came out with a show called "The Girl in the Red Dress." The play is just as good as ever and it is a little better. It is a very nice play. It is a very nice play. It is a very nice play.

### NEW YORK HEN IS

WISE AS ANY OWL

JOHNSTOWN N. Y. Feb. 10.—Giles Freeman, a farm hand employed by Eddie Hale, owns a brown leghorn hen of fine pedigree and a remarkable nature.

Before he bought the fowl of Hale, Freeman noticed whenever the hen was put on a new setting she would lay several eggs from the nest. Marking these eggs and placing them under other setting hens Freeman found that not one would hatch. The remaining eggs invariably brought forth chicks.

Tired of buying setting eggs for a hen to scatter over the floor, Freeman decided to sell the fowl. Freeman, knowing of her wonderful nature, purchased her for five dollars.

Each spring now Freeman uses her only to sort worthless eggs from the settings of farmers who come from a radius of many miles to have the bird pass judgment on their assorted eggs.

In reply to the attack upon Captain Peterson, prosecuting attorney E. DeLoe explained that the arrest of the young woman was legal. He said that the woman was arrested on a charge of criminal libel brought by Captain Peterson. The arrest was justified because the woman was a known criminal and the captain was acting in the line of duty.

**"The Liver Pills act So Naturally and Easily."**

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson, after trying them wrote:

"I have used Dr. Miles' Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results. The Liver Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headache I take an Anti-Pain Pill and get immediate relief in every case."

A. L. Wilson, Sparta, Ill.

Mr. Wilson was for a number of years cashier of the First National Bank of Sparta.

**Dr. Miles' Nerve and Liver Pills**  
 are different from others. Many kinds of liver pills are "impossible" after one trial on account of their harshness. Dr. Miles' Nerve and Liver Pills do not act by sheer force but in an easy, natural way, without griping or undue irritation. They are not habit forming.

## RAILROAD BILL OF ADMINISTRATION NOW LAW

Governor Signs Measure; Yesterday's Work in Senate and House.

SACRAMENTO, Feb. 10.—Yesterday was prolific in legislative action at the state capitol, both houses being kept busy with the introduction of bills. The increase in the volume of new bills is explained by the fact that today is the last day upon which bills may be introduced without a two-thirds vote of the members. In the Senate fifty-two bills were presented, and in the Assembly 155.

Both the Senate and Assembly filled in the gaps effectively by the passage of bills, several of which were among the more important of the present session. The administration bill became a law at 5:40 o'clock yesterday when it was signed by the governor, having been passed by the Senate by a vote of 35 to 1. The most important of the new bills introduced was a series of bills, introduced by Assemblyman Benedict, making the office of attorney general appointive and abolishing the office of attorney general. The following are the committees affected: Harbor, university, insurance, finance, fish and game, banking and board of health. Provision is made for the appointment of an assistant attorney general at a salary of \$4000 per year, a chief deputy at \$3000, eight clerks at \$2000, four clerks at \$1800 and various other clerks and stenographic and stenographic reporters.

## PRIMARY REFORM TO BE INTRODUCED BY ASSEMBLYMAN

ASSEMBLYMAN C. C. YOUNG. —Holson, Photo.

SACRAMENTO, Feb. 10.—Although nearly all the "reform" measures of the administration have been introduced in both houses, one important bill is yet to be presented. It is the primary election law.

Assemblyman Young, who is chairman of the Assembly committee on election laws, has spent days and weeks in preparation of the bill and completed his work at a late hour last night. In the main the new bill will follow the lines of the existing law, except that it will be simplified in an effort to eliminate some of the cumbersome features of the law under which the last primary was held.

One of the most important changes will be that the date of the primary election will be fixed in the month of September, instead of in August. This will shorten the campaign between the time of the primary and the date of the November election.

## STATE UNIVERSITY FUNDS WORRY SOLONS

Controversy Over Educational Institution Matters Keep Law-Makers Busy.

SACRAMENTO, Feb. 10.—Numerous bills and proposed measures affecting the educational institutions of the state are the center of attention at the capitol and promise to bring forth weighty argument and a long line of debate before they are passed.

At nearly every session there is a controversy over State University funds and, although senate constitutional amendment No. 1 made provision for the university, the controversy still exists. The university is now in a financial straits and the state is being asked to contribute to its support.

The finance committee pointed out that under the new system the assessment of the state would be increased by more than 10 per cent. The assessed value of property kept increasing and thus the amount yielded by the university fund would be increased. They also pointed out that the university fund was being used for other purposes.

## BILL BEFORE SENATE

The bill before the committee, which was introduced by Senator Stinson of Oakland, provides that the university shall have 3 per cent of the total value of the state property, which is estimated at \$100,000,000. The bill also provides that the university shall have the right to sell its property.

## WALLACE SPEAKS

Lieutenant Governor Wallace made his first appearance at the capitol yesterday. He spoke at a meeting of the Senate and gave a report on the work of the executive department.

## TEACHERS' PENSION

Mrs. Mary Bragg of the San Francisco High School and Principal T. L. McCarty, representing 1100 teachers addressed the committee on education. They asked for a pension for teachers who have served the state for a long time.

## PATENT LEATHER SYSTEM

"The state has a patent leather educational system," said a speaker at a meeting of the Senate. He pointed out that the state is spending a large amount of money on education and that the results are not always as good as they should be.

## UNPOPULAR DECISION

"Such a judge will, of necessity, render decisions that are unpopular with the public," said a speaker at a meeting of the Senate. He pointed out that the public often complains about the decisions of the courts.

## EMINENT DOMAIN IS AGAIN BROUGHT UP

SACRAMENTO, Feb. 10.—Senator Newitt introduced a bill in the senate yesterday relating to the development of the Owens river aqueduct. The bill allows the city the right of eminent domain in condemning land and power plants in order to dispose of the power to municipal purposes.

## KICKED IN FACE IN CAR DISPUTE

Clerk Declares Conductor Assaulted Him; Transfer Causes Trouble.

SAN FRANCISCO, Feb. 10.—A dispute over a transfer on an Ellis street car this morning resulted in the painful injury of Albert Brobeck, a clerk, residing at the Portland House, who claims to have been kicked in the face by a conductor and thrown from the moving vehicle.

According to Brobeck, he presented a transfer to the conductor which he refused and a dispute arose. He started to get off the car and with suddenness the stop, he claims, when the platform man kicked him in the face, throwing him off.

## DOCTOR TREATS HIM.

Dr. George Brady, a passenger, conveyed him to his office in the Phelan building, where he was given a temporary dressing after which he was removed to the Harbor hospital.

The conductor's number, according to Brobeck, was 1599 and he promises to prosecute him into the limit of the law.

## CANDIDATES WANT DEFINITE ACTION

Plan Suggested That Delegation Ask Governor to Hurry Charter Legislation.

A solution to the difficulty that may confront the city should the legislature fail to pass the new charter in time for the April primary election has been suggested by City Clerk Frank P. Thompson. It is hoped by the candidates and the members of the freeholders board and the city administration that a delay will not occur but as the city has been informed from Sacramento that the legislature will not pass the charter in time for the April primary, Thompson suggests that the city should ask the governor to hurry the charter legislation.

## OAKLAND CLUB WILL GIVE SHOW

"Miss Someone From Somewhere" to Visit Macdonough February 16.

With the date of the performance less than two weeks distant, all efforts are being made for the production of the musical comedy, "Miss Someone From Somewhere." The principals, under the direction of James Gleason and Clarence Diller, know their lines perfectly, while the chorus, under Miss Daisy Wright, rehearse their songs and steps daily. This Oakland Club production will be given at the amateur cast. Heretofore the Kirmess has been made up of singing and dancing and farces composed of lines only, but a musical comedy comprises the excellent and difficult parts of both, thus requiring double the amount of skill, patience and energy to present.

The cast of "Miss Someone from Somewhere" includes twenty-eight principals and a chorus of sixty. With this number on the stage for the opening choruses and dances, all to summer costumes, a delightful and gay spectacle will be presented.

The time limit of the comedy is two hours and a half, the length of any professional production, so the audience will not be fatigued by an excess of songs and lines, as they generally are at an amateur show.

The members of the cast have shown enthusiasm throughout the course of rehearsals by attending, rain or shine. To reward them for their faithfulness a dance is being planned for their pleasure at the Home Club.

Since Oscar Tugala and Louis Lagoria, a author and composer, have written the play, they have been assisted by young men and women with theatrical aspirations to write skits and songs for the vaudeville stage.

"Miss Someone from Somewhere" will be given the evening of February 22, Washington's birthday, at the Macdonough theater. Seats will be on sale on and after February 16 at the box office.

Some of the young ladies who are taking part are:

Marguerite Black, Hazel Ingels, Grace Ewing, Alice Elliot, Thelma Hebert, Helen Dancy, Edna Kline, Clara Coffin, Isabelle Nelson, Alice Hill, Mignon du Noy, Allison Stone, Beth Hoyt, Florence Robinson, Clara Hart, Gladys Voice, Eva Gibbons, Marguerite Carthywaite, Evelyn Carman, Edna Schrock, Gladys Gardner, Helen Coogan, Helen Downey, Phyllis Lovell, and Georgiana Sneathen.

## BANK ON WHEELS GATHERS UP MONEY

PATERSON, N. J., Feb. 10. — This town is all worked up over a bank robbery which one of the Paterson trust companies has equipped a steel lined auto, somewhat along the lines of the motor formerly used by the Night and Day Bank of New York, to take up late receipts in the recent trial belt of Broadway, and is going to send it out in the country to catch wealthy depositors.

The car is fitted up with a desk and office equipment, including compartments for books, checks and papers. A solid steel safe is built in one corner. A small window, guarded with heavy steel and brass bars and liberal space for firearms will afford clerks protection on their travels.

## MAN FALLS 100 FEET AND IS FATALLY INJURED

LONG BEACH, Cal., Feb. 10. — Precipitated a hundred feet through the air when the scaffolding on which he was at work on the smokestack of the new Southern California Edison company plant here broke today, James Ellis sustained injuries from which he will probably die. A. C. White, another workman, standing directly under the scaffold, was crushed beneath the falling planks and badly injured.

## GARLAND TELLS A FEW TRUTHS

Noted Novelist Says "We Are All Slaves of Rent, and Auto Lovers."

CHICAGO, Feb. 10. — Hamilton Garland, novelist, in an address last night told members of the Chicago Architectural Club that American art is being held back by our fanatical need of living where rents are high and gold abounds.

It was the annual banquet of the organization and more than 200 architects were present.

"We love money, not as misers love, but as children love it," said Mr. Garland. "We love it for what it will buy. In this sense we are all money grabbers. We are all struggling to fit ourselves into the \$10 class to the \$20 a week level. We love automobiles and gasoline cars, the cars of the future and private railways because they are the pride and glory of life.

"If all this you and I are involved. There are few artists of my acquaintance who are not living rocklessly close to their income, or are not pandering in some degree to the wealthy patron. American art is being weakened, warped, held back by our fanatical need of living where rents are high and gold abounds. We are nearly all slaves of rent.

"I myself should be living on a farm in Wisconsin or in a tent in Colorado, instead of Chicago.

## STREET CAR BANDIT GETS LIFE SENTENCE

LOS ANGELES, Feb. 10. — Louis Fox, the youthful bandit who, with a companion, held up and robbed a Venice suburban car on January 25, headed guilty when arraigned for trial yesterday, and was sentenced to life imprisonment. He was taken to San Quentin last night.

One man was shot in the fistula which Fox and his companion started when they boarded the car, and Fox in turn was shot through the jaw by one of the passengers.

## WILLIAMS, Feb. 10. — Deputy Sheriff J. Whitcomb yesterday arrested a suspect answering minutely the description of the bandit who held up and robbed the passenger of a Santa Monica car on the outskirts of the beach city on the evening of January 25, and escaped amidst a fusillade of shots, in which his companion was wounded and later captured. He gave the name of Sam Barros, and declared he has been working in a railroad construction camp twenty miles below here since December, but Whitcomb has been unable to verify his story.

## LINER MUST HAVE BEEN READY FOR 'LONG DRAW'

SAN FRANCISCO, Feb. 10. — Continuing his search for smuggled opium on the steamer Siboga, Customs Inspector Benninger found \$800 worth of the drug concealed near the vessel's smokestack, making a total seizure having a value of more than \$2000 since the Oriental liner docked.

## LIVE SAVED AT DEATH'S DOOR.

At a recent talk at the Home Club, W. H. Patterson of Wellington, Texas, as when a frightful cough and lung trouble pulled him down for years, in spite of doctors' treatment for two years, his father, mother and two sisters died, he came to San Francisco, Cal., to see Dr. King's New Discovery, which completely cured me. Now I weigh 167 pounds and have been well and strong for years. Quick, safe, sure, it's the best remedy on earth for coughs, colds, flu, grippe, asthma, croup, and all throat and lung troubles. 50c and \$1.00 bottles free. Guaranteed by Osgood Tires.

## BRAZIL IS MECCA OF COLLEGE MEN

Vice-President of Stanford and Party to Explore Wilds.

STANFORD UNIVERSITY, Feb. 10. — Under the leadership of Dr. John C. Branner, head of the department of geology here and vice-president of the university, a party of Stanford men will leave New York for Brazil on April 15 to explore the northwest coast of Brazil, which at the present time has never been penetrated.

The expedition is primarily for zoological purposes, but it is also a geological one. Professor E. C. Starks, Professor O. P. Jenkins, William Luna and G. C. Branner, with the possible addition of Professor E. M. McPherson and Dr. Fred Baker of San Diego will compose the personnel of the party.

The scientists will endeavor to ascertain to what degree the Amazon river acts as a barrier to the movement of animals in that region. A detailed survey of the northwest coast of Brazil is also to be made.

The co-operation of the southern republic is said to be assured, and it is hoped that a grant will be granted the explorers to further their work. In case the Brazilian government does not see fit to do this, a private steamer is to be chartered.

Dr. Branner will have complete control of the expedition. Nearly every man is interested in a different phase of the research work. Professor Howarth will study corals; Professor McPherson if he goes, will study mollusks; Luna will collect and study reptiles; Dr. Baker will devote his time to reforestation, and Dr. Baker and Cook will assist in topographical and collection work.

# Cottolene

"Nature's Gift from the Sunny South"

It's too late to lock the stable when the horse has been stolen—too late to care for your stomach when indigestion is upon you. Why not take time by the forelock by dispensing with hog lard—the breeder of nine-tenths of all indigestion, and insist instead that all your food be cooked with Cottolene—a pure, vegetable shortening which makes healthy, digestible food?

Cottolene comes from the cotton fields of the Sunny South. It is a clean product, protected by patent air-tight tin pails to insure freshness and freedom from contamination. It is recommended by physicians as being fully as healthful as olive oil.

## RADIUM SUBSTITUTE ENDS SERIOUS FAMINE

BERLIN, Feb. 10. — Newspapers announce the end of the radium famine. They say that Professor Otto Hahn of the Berlin University has obtained an effective substitute, and that in a few months the Academy of Science will be in possession of 250 milligrams which will lead to investigations.

The new radium substitute is a by-product of the manufacture of thorium salts and it has been named by its discoverer "mesothorium." It compares favorably with radium in its activity with the same radioactive properties as the corresponding salt of radium, although the latter emits three or four times as much. It alone can produce ten grams of the thorothorium salt yearly. It is said, which would be equal to the entire supply of radium salt at present of the world.

## TWO CALIFORNIA HOTELS TO BE IN BIG CHAIN

LOS ANGELES, Feb. 10. — G. L. Vernon of London, assistant manager of the Hotel-Carlton Hotel company, the \$150,000,000 British corporation with the office at the way from St. Petersburg to Pittsburg, is here and announces that the chain will be extended around the world with San Francisco and Los Angeles to be included.

## RENO DOCTOR FOUND GUILTY OF SLAYING

RENO, Feb. 10. — Dr. Frederick Hugo Wichmann was found guilty of manslaughter last night by a jury selected to try a charge of murder placed against the physician, as a result of the death of Mrs. Emma Gillespie Ross on October 3, last, in Reno. The evidence disclosed that Wichmann had treated Mrs. Ross, and she had given premature birth to an infant, whose body was later burned. A second operation on Mrs. Ross resulted in her death.

## ANNOUNCEMENTS

President William Harris is now in New York where Vernon's reports have been reaching him and the decision to invade the Pacific Coast is final.

Hotels will either be bought or built in San Francisco and here and the company's restaurant service will also be established on trans-Pacific liners, according to Vernon. The Ritz-Carlton people are building a costly hotel in Montreal and negotiating for a site in Chicago as one of the coastward links in the chain.

## YOU CAN'T CURE DYSPEPSIA BY STARVING, SAYS OSGOOD, THE DRUGGIST

The Ideal Remedy Will Help the Dyspeptic to Digest Food That Will Build a Strong Constitution --- Cure Should Come From Nature---Remedy Only a Help--- Wonderful Results From New Medicine.

"You can't cure dyspepsia by starving yourself," said Fred Osgood yesterday after selling a customer a bottle of his new remedy for indigestion. "That woman just told me she had been living on hard-baked bread and Graham crackers, etc. That's foolishness. Proper food well digested will produce good blood, and good blood will renew every portion of the system, and when the system is O. K. the stomach will digest almost anything.

"Of course I wouldn't advise a confirmed dyspeptic to eat mince pie just because my remedy will help him digest it, but I do advise by all means a generous diet of the foods that best agree with the individual taking the medicine. As a general thing it is better to digest boiled, broiled or roasted meats instead of fried meats. Coffee is all right if perfectly fresh, but very bad if stale. So is tea. Raw oysters, boiled mutton, dropped eggs, boiled rice, baked potatoes, raw cabbage, ice cream, beans, peas, etc., are all right. Black tea is better than green. Every man should judge for himself, for no two stomachs are alike.

"As far as my new remedy is concerned, which my friends persist in talking so much about, I will say that it simply helps the patient to digest in a natural manner the food he puts into his stomach. If he eats foods that will build him up by enriching his blood he should eventually be cured, as the medicine is harmless and could be taken for years and years without ill effect. Those who are taking it claim wonderful results and some say they are cured. Whether this is so or not I cannot say, as I haven't had the prescription long enough. However, it is saving a lot of discomfort and making a whole army of enthusiasts. I do not care for the patent medicine business particularly, but this prescription was such an unusual one that I felt it was only right that I should offer the public the benefit of it. It looks now as though I'd have to manufacture it on a big scale, although I'll never sell it outside of Oakland, as I have no ambition to become a manufacturer of a medicine."

Several physicians who have seen the prescription and analyzed themselves with the results attained claim that Osgood has a fortune in hand if he takes advantage of his opportunity. He has arranged to sell the medicine at a dollar a bottle at both his Seventh and Broadway and his Twelfth and Washington street stores. He agrees to refund the money to anyone who is dissatisfied.

WASHINGTON STREET CORNER TENTH

## Pope Hartford Racer Arrives Here for Oakland Road Race and Motordrome

Jack Fleming at the wheel of his Pope-Hartford racer. Fleming is regarded as the most dangerous contender for first honors in both the motordrome and road races.

The big Pope Hartford car which Jack Fleming will pilot in a big field of starters in the Oakland Road Race, is in Oakland and will be on exhibition at the salesrooms of the Consolidated Motor Car Co., for the next few days. It is the car which Fleming piloted in the Vanderbilt race and made a splendid showing in this class, being one of the few cars in a big field of starters to finish. Fleming will pitch camp in the next few days on some spot near the starting line of the Washington Birthday race. Big Jack will undoubtedly be the favorite with the majority of people both from this county and the city across the bay, not only because of his splendid victory in the Portland race but a \$20,000 prize which he won because of his popularity with everyone with whom he comes in contact. After the running of the Oakland Panama Pacific contest, Fleming will figure prominently as a contestant in all the races to be held at the Motordrome. A three-cornered race between him, De Palma and Wilcox will furnish a thriller of the unusual sort. The Pope Hartford first gained prominence as a result of the Portland race. Since the running of that classic it has been entered in many other big races and has maintained a good record. In the Santa Monica race, Dingley, driving one of these cars, made an average speed of 71 miles an hour. He also is entered in the Panama Pacific event.

## COMES IN SEARCH OF MISS JENKINS

Half Sister of Harry H. Houston Declares She Loaned Woman \$1500.

Confident that her half-brother, Harry H. Houston, who went to South America with Belle C. Jenkins last July, the plaintiff alleged to have taken with them a sum approaching \$21,000 belonging to the Holcomb Realty Company of this city, is somewhere in the vicinity, Miss Hazel Baudy has come here from Michigan in hopes of locating the couple, that she may recover \$1500 which she says Miss Jenkins borrowed from her nearly two years ago while she lived with them on Castro street.

Houston and Miss Jenkins lived there as man and wife, according to Miss Baudy. For some time and when she came to California they told her that they had been married in Napa some time previous, and showed her a wedding certificate, according to her statements.

## WINS CONFIDENCE.

I was while she was sick that Belle Jenkins won her confidence, she says, and afterward borrowed the \$1500 a sum that had been left her by her father and deposited her whole estate.

"I just turned I heard from 'Doc' that she was in Napa, on the isthmus. That was about January 9, and I understood that they were both in that time and that for would shortly take a ship for the north."

I feel sure that they have arrived and that they are somewhere near Oakland, or perhaps in San Francisco, but to me will help me find them and all declare that they do not know where they are now located."

## FATTED CALF FOR ELOPING COUPLE

Chico Woman Makes Up Mind to Forgive Six Months Afterward.

CHICO, Feb. 10.—In a sermon rendered to her eloping daughter and her husband Mrs. A. L. McIntosh signified to the world that the young couple had been welcomed back to the family home, and that she was willing to accord to them a parent's blessing. In view of the fact that the wedding occurred nearly six months ago in Santa Barbara, it is a very healthy one, and the arrangements were most elaborate. A number from Oroville were included in the list of invited guests. Miss Cadden, a sister of the bride, was the subject of a great deal of gossip in Chico society. Circles last fall. The marriage was a happy one. Santa Barbara and a big telegram brought the first news to the girl's mother in Chico.

## FOR SCIATIC RHEUMATISM

Try the Treatment That Cured This Pronounced Case in Minneapolis After Other Treatments Failed.

Sciatica is neuralgia of the sciatic nerve. Its origin is generally rheumatic and is the direct result of taking cold. For this reason the disease is commonly known as "sciatic rheumatism." That Dr. Williams' Pink Pills cure this disease is shown by numerous cases like that of Mrs. J. B. Hansen, of No. 221 Thirteenth Ave., S., Minneapolis, Minn. She says:

"A few years ago following an attack of the grip I was taken with sciatica. For six years I suffered untold agony and thought it would be useless to seek relief. I could only say, 'There goes my life.' I was unable to do any of my usual work and my shoulders and arms were affected also but not so severely. If I moved about quickly, the pain would catch me so that I had to scream. My limbs would swell until I could hardly walk. I also had a terrible dull pain in my back which was often unbearable. I was confined to bed for a week or two at a time. While suffering from the sciatica I was further run-down by weakness common to women of my age."

"I received so little relief from the doctor's medicine that I became discouraged and quit it. My husband urged me to try Dr. Williams' Pink Pills as he had read how they had cured cases like mine. I felt better after I had taken the pills a short time but took several boxes until I was certain I was cured. I give this statement of my cure thinking that other sufferers may be helped as I was through using Dr. Williams' Pink Pills."

The tonic treatment with Dr. Williams' Pink Pills succeeds where other treatments fail because it is based on the sound medical principle that the health of the nerves depends on pure, red blood.

Every person who is interested in the home treatment of nervous disorders should send for a new edition of our booklet entitled, "Diseases of the Nervous System, Their Nature, Symptoms and Treatment." Address the Dr. Williams' Medicine Co., Schenectady, N. Y.

## CHINESE VETERAN WANTS CITIZENSHIP

NEW YORK, Feb. 10.—The only Chinese who is a veteran of the Civil War has written to President Taft for assistance in efforts to regain his citizenship. He is John Ahm Hang, proprietor of a little cigar store in New York Chinatown. His citizenship papers were cancelled in 1902.

Hang enlisted in the navy at the Brooklyn navy yard in 1862 and served under Farragut at Mobile Bay and also on the Albatross, Penguin and North Carolina. He voted in New York until his papers were cancelled. Hang says that he is an old man now and that he wants to vote for one more president before he dies. In his letter asking Taft's aid, he says that his papers were cancelled and that he served with distinction and was honorably discharged.

## MILLIONAIRE HERMIT DIES ON BIG ESTATE

JAMAICA, N. Y., Feb. 10.—John Leahy, an eccentric hermit, is dead in his home at Lakeville, L. I. More than 70 years old, he died on his \$300,000 estate adjoining Deep Dale, the home of William Vanderbilt, Jr.

Leahy came to this country from Ireland when a boy, and shrewdly purchased with his early savings extensive plots of ground in suburban Long Island. Ten years ago he sold a part of his holdings for \$250,000 and put the money into gilt edge securities, the value of which has more than doubled since that time. The old man could neither read nor write and was not able to sign his name. He signed hundreds of deeds and legal documents every year with his mark. Several sons will inherit his property.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you will certainly be more than pleased with the prompt relief which it affords. For sale by Osprey Bros' Drug Store.

## PHYSICIAN DEMANDS FEE AS WITNESS

FRESNO, Feb. 10.—The Fresno County Medical society has established a rule that physicians shall receive a fee of \$500 for expert testimony. The first attempt to enforce this rule was made when Dr. W. W. Cross was called as a witness for the plaintiff in a suit brought by George Reis against J. P. Bachel for \$3000 damages for injuries sustained. When the physician was called to the stand he refused to give any testimony unless his fee was paid. The attorneys for the plaintiff promptly dismissed him but later he was called in as a witness for the defense and the fee was prepaid by the attorney.

## TO THE SOUTHERN PACIFIC COMPANY:

The undersigned daily travelers on the ferries between Alameda, Oakland and San Francisco deprecate the efforts of the newspapers and automobile clubs to force you to allow more than four automobiles on a ferry boat at one time. We believe that such a practice would be unsafe, if not positively dangerous, and that the safety of thousands of people should have consideration in preference to the convenience and comfort of a few hundred bent solely on pleasure. We heartily commend your Vice-President's refusal to permit such use of the ferries, and earnestly hope that his position will be steadfastly maintained.

(Signed)
